Findings

Parris was clustered into wide midfielders for k = 2, and then wide playmakers for k = 3, although the margins were very thin. In terms of her passing, she did not attempt many crosses or progressive passes or passes into opposition box, while her passes were mostly short. She received the ball higher but more central, while also dribbled high but wider. Her pressures were also at higher locations, while counterpress actions occured more frequently in opposing half.
